

6. ACCIDENTAL RELEASE MEASURES.

Due to the organic solvents' content of the preparation:

Exclude sources of ignition and ventilate the area. Avoid breathing vapours. Refer to protective measures listed in sections 7 and 8. Contain and collect spillage with non-combustible absorbent materials, e.g. sand, earth, vermiculite, diatomaceous earth and place in container for disposal according to local regulations (see section 13). Do not allow to enter drains or watercourses.

Clean preferably with a detergent; avoid use of solvents.

If the product contaminates lakes, rivers or sewage, inform appropriate authorities in accordance with local regulations.

7. HANDLING AND STORAGE.

Handling.

Due the organic solvents' content of the preparation:

Vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapour in air and avoid vapour concentration higher than the occupational exposure limits.

Additionally, the product should only be used in areas from which all naked lights and other sources of ignition have been excluded. Electrical equipment should be protected to the appropriate standard.

Keep container tightly closed. Isolate from sources of heat, sparks and open flame. No sparking tools should be used.

Avoid skin and eye contact. Avoid the inhalation of dust, particulates and spray mist arising from the application of this preparation. Avoid inhalation of dust from sanding.

Smoking, eating and drinking should be prohibited in application area.

Comply with the health and safety at work laws.

Always keep in containers of same material as the original one.

For personal protection see Section 8.

Never use pressure to empty : container is not a pressure vessel.

Storage.

Observe label precautions. Store between 15 and 30°C in a dry, well ventilated place away from sources of heat and direct sunlight.

Due the organic solvents' content of the preparation:

Keep away from sources of ignition. Keep away from oxidizing agents, from strongly alkaline and strongly acid materials.

No smoking. Prevent unauthorized access. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION.

Engineering Measures.

Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction.

If these are not sufficient to maintain concentrations of particulates and solvent vapour below the OEL, suitable respiratory protection must be worn.

Exposure Limits.

Occupational exposure limit for:

EINECS-No. Names

STEL

LTEL

Personal Protection.

Respiratory protection: If workers are exposed to concentrations above the exposure limit they must use appropriate, certified respirators.

Hand protection: For prolonged or repeated contact, use nitrile, neoprene or latex rubber gloves. Barrier creams may help to protect the exposed areas of the skin, they should however not be applied once exposure has occurred.

Eye protection: Use safety eyewear designed to protect against splash of liquids.

Skin protection: Personnel should wear protective clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES.

Physical state	: viscous.	Method:
flash point	: n.a.	c.c.
viscosity at 20 °C:	999 s 4 mm	DIN 53211
specific gravity	: 1.90	
vapour density	:	
lower explosion limit:	n.a.	
solubility in water	: not soluble	
pH value	: -	

10. STABILITY AND REACTIVITY.

Stable under recommended storage and handling conditions (see section 7). When exposed to high temperatures may produce hazardous decomposition products such as carbon monoxide and dioxide, smoke, oxides of nitrogen. Keep away from oxidizing agents, strongly alkaline and strongly acid materials in order to avoid exothermic reactions.

NONE OF THE UPPER DESCRIBED DECOMPOSED PRODUCTS WILL OCCUR UNDER NORMAL CONDITIONS AND PROPER USE !

11. TOXICOLOGICAL INFORMATION.

There are no data available on the preparation itself. The preparation has been assessed following the conventional method of the Dangerous Preparations Directive 1999/45/EC and classified for toxicological hazards accordingly. See Chapter 2 and 15 for details.

Exposure to component solvents vapours concentration in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on kidney, liver and central nervous system. Symptoms and signs include headache; dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin. Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis. The liquid splashed in the eyes may cause irritation and reversible damage.

12. ECOLOGICAL INFORMATION.

The product should not be allowed to enter drains or watercourses.

13. DISPOSAL CONSIDERATIONS.

Do not allow into drains or water courses.

Wastes and emptied containers should be deposited according to the official rules.

Code of waste: 080112

Waste Designation: Waste paint and varnish other than those mentioned in 080111.

14. TRANSPORT INFORMATION.

Transport only in accordance with ADR for road, RID for rail, IMDG for sea and ICAO/IATA for air transport.

ADR/RID Class: Not Dangerous Goods according to regulations.

Tremcard: n.a.

UN-No: n.a.

Transport document name:

Packaging group: n.a.

IMDG Class: n.a.

EmS-No: n.a.

UN-No: n.a.

Proper shipping name:

Packaging group: n.a.

Marine pollutant: n.a.

ICAO/IATA Class: n.a.

UN No: n.a.

Proper shipping name:

Packaging group: n.a.

IN GENERAL:

THIS PREPARATION IN OR WITH ITS CONTENTS IS NOT SUBJECT OF DANGEROUS GOODS REGULATIONS, NEITHER NATIONAL NOR INTERNATIONAL.

15. REGULATORY INFORMATION.

In accordance with requirements of the Classification Packaging and Labelling of Dangerous Substances Regulations.

The product is labelled as follows :

Danger classification: n.a.

Contains: n.a.

R-phrases: n.a.

S-phrases: 2 Keep out of the reach of children.

Other phrases: n.a.

16. OTHER INFORMATION.

Full text of R-phrases with no. appearing in section 2: n.a.

The information of this SDS is based on the present state of our knowledge and on current EU and national laws. The product is not to be used for other purposes than those specified under section 1 without first obtaining written handling instruction. It is always the responsibility of the user to take all necessary steps in order to fulfil the demand laid down in the local rules and legislation. The information in this SDS is meant as a description of the safety requirements of our product: it is not to be considered as a guarantee of the products' properties.
