

Standard wood shades

Certain colours are always in demand for repairs. From a large number of different wood tones, we have 50 colours defined as our standard wood shades. Standard colours availability in stock held products varies across the range of Konig UK Products, therefore, minimum order quantities and delayed despatch times may apply to some products. Please check the “Available In” column to determine **no** minimum order quantity applies. The following products are normally available for immediate despatch in our stock held standard wood shades.
