KONIG UK WINDOW REPAIR KITS

The Window Doctor Repair Kit has been developed due to the demand for a cost effective repair system, within the budget of an installation team.

The fillers have been taken from the original and much larger kit, with the addition of a new combination tool, which acts as a melting iron and applicator in one.

The kit is ideal for repairing small scratches, chips and dents to Mahogany, Rosewood, Oak and White profile.

At a 1/5 of the cost of the larger kit, The Window Doctor - KO614 -has been tremendously well received by current and new users of the Konig system.

- Ideal for fitters.
- Suitable for repairing minor scratches, dents or bruises to UPVC and wooden windows.
- Contains filler for use on Mahogany, Rosewood, Oak and White profile.

KO614206	Window Doctor kit	£42.18
Konig Ref	Description	
KO438510	Combination Tool

KONIG UK WINDOW TOUCH-UP & REPAIR PRODUCTS

KO243 - Colour Edging Pen Plus A highly pigmented solvent based acrylic resin paint pen with weather resistant properties. The unique valve mechanism in the neck of the pen improves paint flow. This is designed for painting in mitre joints or corner grooves. Featuring a bullet tip for good general coverage, these pens also have two replacement tips stored in the plastic insert located in the base of the pen. The replacement tips consist of one bullet tip and a chisel tip for finer, more detailed work. Spare tips can also be purchased separately in packs of ten.

Colour Edging Pens are available colour matched to the popular Renolit Classic & Prestige foils and Composite Door colours.

Renolit Foil	Colour	Konig Ref
	Fabrication White	47500
2178001	Cherry - Base (Golden Oak)	118593
	Red Cherry (Golden Oak Grain)	55497
3202001	Rosewood	115001
2065021 /	Mahogany	33986
2097013	Mahogany Grain (foil on white)	111896
851805	Black Brown	02984
137905	Cream	115493
515005	Steel Blue	111896
612505	Green	13187
308105	Red	62090
701605	Anthracite Grey	7016

New additions to our special matched colour range now incorporate composite door colours for Distinction, Evergreen, Doorstop & Capstone. For more information please contact us on 024 76345466.

KO143 - Hardwax Plus is available colour matched to the UPVC extrusion companies.

It should be used prior to the PF covering lacquer to provide a high quality repair. The filler needs to be applied with the gas heating iron and then levelled using the special applicator and then 1200 grit wet and dry paper.

Single profile colours can be purchased in boxes of 10x 80mm sticks.

We can also supply a pre-mixed set incorporating a mixed box of 10 sticks of different profile matched whites.

SPECIAL MATCH COLOURS FOR WHITE PVCU EXTRUSION

Available in KO143 Hardwax Plus and KO396/372 Sprays

Profile Name	Konig Special Match Code
Duraflex/Synseal Legend 70	447/98
Rehau/Kommerling/Roseview	469/98
Profile22/Esograt/Selecta	523/98
Spectus	677/98
Anglian/Swift/Plastmo/Diplomat/Halo/KBE/Warmseal	446/98
Deceuninck (OLD Blue White)	081/99

Veka	294/07
Everest	670/08
Spectus Cream	284/08
Eurocell Cream	1075/06

KO396 - PF Covering Lacquer is a lightfast and weather resistant pigmented acrylic lacquer. Available in an extended colour range which also incorporates specially matched colours for a wide range of white profiles. Apply the colour matched lacquer, using two or three coats, over the repaired area to disguise and seamlessly blend in the repair. The area should then be cut back lightly using the 1200 grit wet and dry paper to remove any unevenness before applying polishing paste to achieve the desired sheen.

Konig **Training** **Seminars**

The success of Konig is also based on the provision of an excellent range of product training courses, using a proven method, well established in Europe. These courses are run by the Konig Training Instructor who has been trained independently in Germany to ensure correct techniques and practices are passed on. The course provides a hands-on introduction to the theory and practice behind making successful repairs.

Window Repair Training Seminars are normally 90% practical in content and a visit to our excellent Training Centre enables us to complete your instruction without the normal daily interruptions of the work place. When necessary, we will be pleased to undertake training courses at your premises.

Our training centre is easily accessed from all major road networks and we will be pleased to provide directions.

Current availability and details can be obtained by contacting our office on 024 76345466.

Konig **Training** **Centre**

Each person has a fully equipped workbench with the latest Konig Products enabling visitors to become fully aware of the Konig Repair System.

Expert **Tuition**

The Konig Training Instructor has been trained Independently by Konig in Germany to pass on correct techniques. Visitors are given one-to-one advice ensuring best results.
