

König Universal Basecoat 312 000

Uses

- For an embedding priming, e.g. as sealing primer for a new structure, as blocking primer for a repair, as smoothing primer for closed-porous surfaces.
- To be used on both light and dark woods.
- Recommended for indoor use.

Characteristics

- A transparent lacquer based on nitrocellulose.
- Gloss level: matt.
- Can be sanded after approx. 20 minutes.
- Little firing effect.
- Can be varnished with all König touch-up and aerosol lacquers.

Application

Shake can well before use (mixing balls must be audible) and briefly spray valve free. Make a test on an inconspicuous area first as product is not Soft-PVC resistant. Process at room temperature – do not spray on cold/ hot surfaces.

In case of **horizontal** surfaces sand and remove dust, before applying a wet coat.

In case of **vertical** surfaces several (2-3) coats, not too wet, are best.

Spray distance approx. 30 cm.

After approx. 20 minutes, at normal room temperature, strip off upper lacquer pimpels using the Special Scraper 406.

After the second priming sand with dry Sandpaper 414, grade 240/280 and then with Wire Wool 000, article no. 413.

Finally, remove dust thoroughly.

Specifications

To be ground: after approx. 20 minutes (dependent on room temperature and coat thickness).

Substrates: real wood, veneer, plywood and MDF-boards.

Coverage: approx. 1.5 m² per 400 ml, if applied twice.

Shelf life: at least 2 years (stored upright at room temperature, in original unopened container)

Safety Precautions

- Extremely flammable.
- Pressurized container.
- Protect from sunlight and do not expose to temperatures exceeding 50°C.
- Do not spray on a naked flame or any incandescent material.
- Keep away from sources of ignition. – No smoking.
- Do not spray into eyes.
- Keep out of reach of children.
